

KYD-MD008 Folding mask head-strap ear-loop welding machine

1.Description:

This machine is an automatic equipment for outer nose wire& head hanging strap fixing on the folding masks.By using ultrasonic welding technical, the machine only requires one person to place the folding mask body in a special fixture position, then the machine will automatically set nose wire feeding/cutting off/welding fixed and ear-loop elastic feeding/welding.It also has the automatic stacking function---this improving the production efficiency,saving labor costs and also improving the product quality well.

2.Technical parameter:

Machine size:	3200*1320*1950mm	Pressure:	6kg/cm ²
Yield:	18-25pcs/min	Fuselage material:	Steel products
Machine weight:	1200KG	Control mode:	PLC
Voltage:	220V	Detection mode:	Photoelectric detection
Power:	2.5KW	Remark:	/

3.Feature

1. Multifunction and Higher Efficiency,lower trouble.
2. Stainless steel structure,independent electrical control box.
3. The parts surface adopts chorme dealing,covering parts of stainless steel,looking beautiful and clean.
4. Machine with Multifunction,and change the model for each different size shoes cover producing.
5. Automatic piece Account, Machine with Stop Protection.
