

## KYD-U003 Ultrasonic Welding Machine

### 1.Description:

This machine adopting the concentric straight - axis design to prevent hypsokinesis and increase the welding accuracy . The fine turning inhibiting device on the machine makes the welding more even . The speeds of rising and falling can be adjusted separately which can increase the working efficiency . Using imported transducer and spare parts for longer working efficiency . The time control is accurated to centisecond by adopting three digital switch .

### 2.Technical parameter:

Machine size:	610*610*1740mm	Pressure:	6kg/cm <sup>2</sup>
Voltage:	220V	Fuselage material:	Aluminium alloy
Machine weight:	80KG	Control mode:	/

### 3.Feature

1. Multifunction and Higher Efficiency,lower trouble.
2. Stainless steel structure,independent electrical control box.
3. The parts surface adopts chorme dealing,covering parts of stainless steel,looking beautiful and clean.
4. Machine with Multifunction,and change the model for each different size shoes cover producing.
5. Automatic piece Account, Machine with Stop Protection.
